**PRACTICE PHARMACY SKILLS THROUGH
INTERACTIVE VIRTUAL MODULES!**

Virtual Study™: Pharmacy Technician Basic Program is a web-based program, see your sales person for details.

R0210127-04

Simulate, educate, improve.

VIRTUAL STUDY™:

pharmacy technician basic program

This program includes interactive, self-paced, educational modules designed to provide the learner with the knowledge-base required to enter the Pharmacy field and continue to grow as a technician.

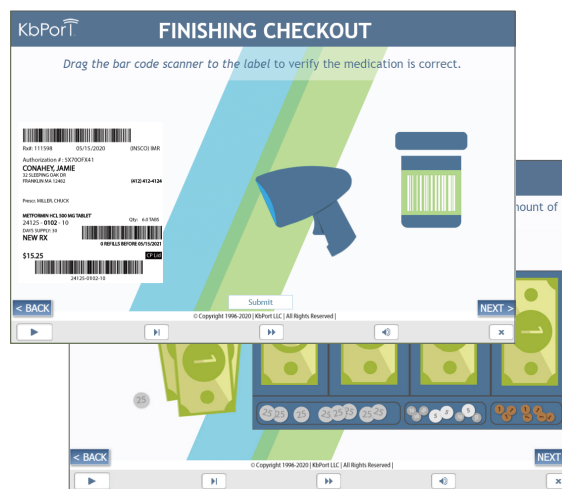

Pharmacy Innovation in the Lab

If you are looking for an innovative way to instruct pharmacy technician students in today's challenging educational environment, the Virtual Study™: Pharmacy Technician Basic Program is for you.

The Pharmacy Technician Basic Program blends key concepts and activities in a virtual learning environment followed by completion of hands-on skills in a laboratory environment.

Students are challenged to complete exercises and exams specific to competencies required for a beginning career as a technician and establishes the knowledge-base needed to pursue national certification and additional training.

Areas covered are aligned with national certification and today's training requirements and can be used as a bridge program to further technician training or as a supplemental learning tool for an existing program.

All Modules* Feature:

Interactive Activities

Interactive tasks designed to improve critical thinking; All tasks offer instructional feedback

Credentialing

Content is aligned to PTCB, ExCPT, and ASHP goals & guidelines where applicable

Practice Questions & Exams

Questions support a variety of interactive operations (multiple choice, drag & drop, fill-in-the-blank) to ensure knowledge acquisition

*** Customizable: Modules can be enabled/disabled to meet specific requirements**

“ Training pharmacy technicians through a virtual environment, rather than online, provides an interactive, hands-on approach to tasks performed in today’s busy pharmacy. With the challenges we are facing today, this innovative approach utilizes advanced technology and provides employers and educators the best and fastest way to build a ready workforce.”
